

What is Security Delta (HSD)

Security Delta is the Dutch security cluster with HSD Office as an independent accelerator, connector and facilitator.

Why

Collaborate and innovate together for a more secure (digital) world and broad prosperity. Together we Secure the Future!

What

As an independent non-profit organisation, we offer access to knowledge, innovation, (inter)national markets, talent, and financing & capital.

How

Through our (inter)national network and our role as accelerator, connector, facilitator, and programme coordinator/orchestrator.

Thematic focus:

Cyber Resilience

Human Capital

National Cyber Campus

Smart Secure Cities

Smart Secure Grids & Energy Transition

Smart Secure Defense & Resilience

Smart Justice & Security

Triple helix & ecosystem partners

HSD partners include government and public organisations, educational and knowledge institutions, and businesses from across the Netherlands. These range from startups to scale-ups, innovative SMEs, critical infrastructure organisations, and industries to large corporations. They also include regional development organisations (ROMs), the Netherlands Foreign Investment Agency (NFIA), the Netherlands Enterprise Agency (RVO), embassies, accelerators, investors, the Netherlands Commission for Innovation and Entrepreneurship (NCC-NL), and training agencies, to specialised service providers.
