

The Hague Security Delta

Cyber Security Week

powered by The Hague Security Delta

Join the Cyber Security Week 25-29 September 2017 - The Hague – The Netherlands

From 25-29 September 2017 the second Cyber Security Week will be organised in The Hague, The Netherlands. It will take place in the same week as the Europol - INTERPOL Cybercrime Conference and the EC-Council's Global Cyberlympics final. During this week, The Hague will be the centre for the cyber security community. Dozens of events will provide the opportunity to meet key players, discuss the latest developments, share knowledge and pitch innovative ideas for funding. The CSW is powered by The Hague Security Delta, the leading security cluster in Europe.

Monday 25 Sept: Access to Talent

The first day of the CSW will be dedicated to spark the interest of youngsters for the field of cyber security. Qualified personnel is of vital importance for the creation of innovative security solutions and thus the protection of organisations and society as a whole. Several events will be organised, including a Hacklab to promote the security sector to primary school students.

Tuesday 26 Sept: Access to Capital

Capital is necessary to develop innovative ideas into working systems and products. Therefore, a Dragons Den and startup accelerator programme will be organised as well as a special startup event by Startupfest.

Wednesday 27 Sept: Access to Market

Access to business & knowledge partners, launching customers, and international markets is of great importance for developing innovations and doing business in cyber security. On this day an international matchmaking event will be organised by Enterprise Europe Network and incoming trade missions will visit the city, presenting both national and international trade opportunities. The day will be closed with a network reception at the City Hall.

Thursday-Friday 28-29 Sept: Access to Knowledge & Innovation

It is important that organisations and society as a whole stay on top of their game to protect themselves against cyber threats. Therefore, access to relevant knowledge & innovations is key. That is why several lectures and events will be organised, including a Open Innovation Hackaton, Dare to Cross and Hague Talks.

Want to Participate?

If you've got ideas for our programming or would like to join with your event, please contact the coordinators of the CSW before 31 May.

The Hague Security Delta

Secure Digital Gateway to Europe

The Netherlands is well known for its excellent logistics and infrastructure, as well as for its strategic position in the European Union. These strengths have earned it the title 'Gateway to Europe'. The Netherlands' modern IT environment and presence of the national security cluster 'The Hague Security Delta' makes it the 'Secure Digital Gateway to Europe' as well. The Netherlands owes this position primarily to its:

- well-functioning, state-of-the-art digital infrastructure (AMS-IX is the largest Internet Exchange in the world)
- vibrant IT sector doing world-class research
- businesses, governments, and knowledge institutions working together on innovations
- consumers and companies, which are quick to embrace IT innovations.

Thanks to these favourable conditions, a wide range of foreign IT and cyber security companies have already opened offices in the Netherlands. Also, many leading IT companies have located their European headquarters in the country,

The Hague, European Cyber Security Capital

The Hague has established itself as a major hub for cyber security in Europe, which is demonstrated by the presence of the European Cybercrime Centre Europol (EC3), the National Cyber Security Centre, NATO Communications and Information Agency, Cyber Security Academy and wide range of cyber security businesses. The city is also home to The Hague Security Delta Campus: the national innovation centre for security, where businesses, governments and knowledge institutions collaborate to develop innovative security solutions.

The Hague Security Delta

The Hague Security Delta (HSD) is the leading security cluster in Europe. In this Dutch cluster – with important regional hubs in The Hague, Twente, and Brabant – businesses, governments, and knowledge institutions work together on innovation and knowledge in the field of security and safety. They share a common goal: more business activity, more jobs, and a secure world.

Europol-INTERPOL Cybercrime Conference: 27 -29 September

The Europol-INTERPOL Cybercrime Conference is an innovative annual joint initiative hosted alternately by the European Cybercrime Centre (EC3) in The Hague and by the INTERPOL Global Complex for Innovation (IGCI) in Singapore.

This year's edition will bring to The Hague law enforcement officials, private sector, academia, international organisations and other key entities from across the world to strengthen cooperation on preventing and combatting cybercrime.

Participation is possible on invitation only.

Would you like to attend? Please register at cybersecurityweek.nl. The organisers will consider the requests received from the HSD partners and issue invitations according to their own assessment based on venue availability.
