Veiligheid en
Digitalisering

CENTRE FOR SECURITY AND DIGITALISATION

The new research & innovation hub in the Dutch safety & security innovation ecosystem!
An enduring safe and resilient society is our challenge, expanding the digital safety & security workforce is our mission.

Our focus on **safety and digitalization** comprises three interrelated themes.

This way, we add value to networks and consortia of knowledge institutions, SME's, public safety regions and government offices.

Cooperative programs in research, education and lifelong learning are developed by our founding partners University of Twente, Saxion University of Applied Sciences, ROC Aventus, Police Academy and NIPV.

In strategic alliances with the Dutch Tax Authority, the Dutch Geo Information Authority (Kadaster), Achmea, dcypher and the HSD.

PROGRAMS

Learning & Innovating Ahead of the Threat: (re)designing LCs to stimulate the proactive development and implementation of innovative security practices
Criminal Investigation DX: Advanced diagnostics for criminal investigations based on innovative technology.
CLIC-IT: Communities of Learning and Innovation in ICT to accelerate digital transformation.
CyberweerbaarNL: committed to a cyber-resilient Netherlands, with focus on behavior and attitudes.
CVD core PhD program: comprises 6 ppp-projects in all three thematic areas of the CVD.

NICE TO MEET YOU!
